

Product info sheet:  
**glimtrex<sup>®</sup> Outside- Oil**

### **Product description**

The abrasion proofed care and maintain your wood in the grain, such as taresses, decks, carports, garden furniture, etc.

glimtrex<sup>®</sup> Outside-Oil is a natural wood care, which is made from weather resistant oils and micro fine pigments. That is how UV-rays are blocked and the wood is protected against weathering.

glimtrex<sup>®</sup> Outside-Oil is after drying odor free. More over it is free from toxic substances and is based of renewable raw material.

glimtrex<sup>®</sup> Outside-Oil consists of diaromatissed hydrocarbon, refined nature oils, cobalt- and calcium soap such as pigments.

### **Treatment**

Stir glimtrex<sup>®</sup> Outside-Oil before using. The surface has to be clean and free from dust.

Remove algae, grace, dirt and other pollution. Apply glimtrex<sup>®</sup> Outside-Oil on the untreated wood.

### **Natural Surface**

Apply 2 - 3 times with interim drying of approx. 12 hours. Than the wood is weather resistant.

The wood humidity should not exceed 18% and the process sing temperature should not be below +8° C. We recommend to do a sample coat.

### **Treated Surface**

You can apply glimtrex<sup>®</sup> Outside-Oil on all typs of finishes, as long as the base is viable.

Not viable underground needs to be sanded. Than you can apply the Oil as explained above.

### **Care**

You can brush of or wipe of light pollution, such as dust, pollen etc.

To maintain or refresh put a coat of the Outside-Oil on the clean and dry surface. No sanding is necessary.

If the surface is highly polluted we recommend our glimtrex<sup>®</sup> wooden deck cleaner.

## **Yield**

1 Liter for 20 m<sup>2</sup> per coat. Depending on the type of wood and the wooden surface (freshly sawn or planed wood). If the surface is ripped the yield might double.
