

Product info sheet:

glimtrex® Food-Safe-Oil

Product-description:

glimtrex® Food-Safe-Oil is a solvent-free, vegan and odour-neutral plant oil. It consists to over 99% of renewable raw materials.

Characteristics:

- lebensmittelecht
- suitable for the surface treatment of wooden objects that come into contact with food, e.g. kitchen work surfaces, chopping boards or fruit bowls, as well as for use on children's toys
- tested from Fresenius institute
- solvent-free
- vegan
- odour-neutral
- The dried surface is dirt and water resistant and has good chemical and resistance.
- light inherent colour and good lightfastness
- based on renewable raw-materials
- Toy safety DIN EN 71-3 (2014-12)
- The material meets EN 71-3 (2014-12) and the provisions of the German Food and Feed Code (LFGB) as well as Council Regulation (EC) No. 1935/2004 and having passed the sensory tests it is therefore also suitable for direct contact with food and animal feed.
- Saliva and sweat resistance according to DIN 53160 Parts 1 and 2: no discolouration (Level 5)

Surface treatment:

If necessary sand the wood slightly. Remove dirt and dust. The wood has to be dry and free of dirt and dust.

glimtrex® Food-Safe-Oils should be applied at room-temperature. Please make a sample before you apply glimtrex® Food-Safe-Oil.

Apply Food-Safe-Oil with a fine sanding fleece or sponge and rub it in. Remove the excess with a cotton cloth after absorption for 5 - 10 min at 20 °C room temperature.

The surface should appear dry; otherwise there may be issues with thorough drying. A second coat of oil can be applied after 16 h at 20 °C room temperature,

Particular instructions:

The oiled surface must be stored for at least 1 week at 20 °C and with adequate air circulation prior to contact with food and animal feed..

Regularly cleaning: with clear water

Freshing-up: use Food-Safe-Oil again

yield: 1 liter will usually cover up to 20 m² depending on the condition of the surface.

Technical information: shine-level: mat; Tin size: 0,1 Liter

Bei mit Öl getränkten Baumwolltüchern, Pappen bzw. Papier besteht immer die Gefahr der Selbstentzündung durch Wärmestau! Deshalb ausgewaschen und ausgebreitet an der Luft trocknen lassen und anschließend entsorgen.

Oil-saturated cotton cloths pose a risk of spontaneous combustion due to heat buildup; therefore it is advised to spread them out and allow them to air dry before disposal.

The shelf life is minimum 24 months in the closed original tin. Make sure to stir the tin thoroughly before using. A skin may be on the surface of the product, please remove before stirring.

Please look at the current safety data sheets. You will find them at www.glimtrex.de/downloads.
