

Product info sheet **glimtrex[®] Grayer**

Product description

glimtrex[®] Grayer increases the natural greying of exterior wooden surfaces and establishes a silver/gray effect:

Through the penetration of glimtrex[®] Degreyer the wooden surface is resistant against water, weather and UV-resistant.

glimtrex[®] Grayer is free from toxic materials and dries odour free. Moreover it is biologically safe

Application instructions

- stir the product before using
- the surface should be clean and free from frost
- the wood humidity should not exceed 18%
- the humidity should be smaller than 60%
- glimtrex[®] Grayer has different effects on different types of wood. That is why we recommend to make a sample
- apply glimtrex[®] Grayer with a brush or a whitewash brush 2 or 3 times
- after approx. 12 hours you can recoat the surface
- after approx. 10 days the final hardness is achieved
- for a higher abrasion resistance we recommend to use glimtrex[®] Outside oil transparent.

Yield

1 litre for 15 m² per coat (60 - 70 ml/ m²). If the surface is ripped the yield might double or tiple.

Technical Information

Available in 1liter cans

Store cold but frost-free. The shelf life is 3 years in the closed original tin. Decant the open tins

and hermetically seal them. Use them prompt.

Please look at the current safety data sheets. You will find them at www.glimtrex.de/downloads.
