1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

glimtrex Vintage Intensive 111090

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/preparation

Surface treatment of wood and other materials

1.3. Details of the supplier of the safety data sheet

Manufacturer

glimtrex GmbH Orkotten 68 48291 Telgte Telefon-Nr. +49 (0) 2504 88887-111 Fax-Nr. +49 (0) 2504 88887-112 E-Mail-Adresse info@glimtrex.de

1.4. Emergency telephone number

Germany: +49 (0) 30 30686700

2. Hazards identification

2.1. Classification of the substance or mixture

Classification (Regulation (EC) No. 1272/2008)

Classification (Regulation (EC) No. 1272/2008) Skin Corr. 1 H314 Eye Dam. 1 H318

The product is classified and labelled in accordance with Regulation (EC) No 1272/2008 For explanation of abbreviations see section 16.

2.2. Label elements

Labelling according to regulation (EC) No 1272/2008

Hazard pictograms

 Signal word

 Danger

 Hazard statements

 H314
 Causes severe skin burns and eye damage.

 Precautionary statements

 P264.1
 Wash hands thoroughly after handling.

 P280
 Wear protective gloves/protective clothing/eye protection/face protection.

 P301+P330+P331
 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

 P304+P340
 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Version: 7 / DE

Replaces Version: 6 / DE

Revision: 12.12.2020 Print date: 22.06.21

P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact
	lenses, if present and easy to do. Continue rinsing.
P308+P313	IF exposed or concerned: Get medical advice/ attention.
EUH208 Contains	iron trichloride, May produce an allergic reaction.

2.3. Other hazards

This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT). This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB) (if not listed in Section 3).

3. Composition/information on ingredients

Hazardous ingredients

iron trichloride

CAS No.	10025-77-1				
EINECS no.	231-729-4				
Concentration	>=	0,1	<	1	%
Classification (Regulat	ion (EC) No.	1272/2008)			
	Met. Corr. 1		H290		
	Eye Dam. 1		H318		
	Acute Tox. 4		H302		Route of exposure: Oral exposure
	Skin Irrit. 2		H315		
	Skin Sens. 1		H317		

Note

For explanation of abbreviations see section 16.

This product does not contain substances of very high concern (Regulation (EC) No 1907/2006 (REACH), Article 57) (if not listed in Section 3).

4. First aid measures

4.1. Description of first aid measures

General information

Remove affected person from danger area, lay him down. If unconscious place in recovery position and seek medical advice. First aider: Pay attention to self-protection! In all cases of doubt, or when symptoms persist, seek medical attention.

After inhalation

In case of accident by inhalation: remove casualty to fresh air and keep at rest. Keep warm, calm and covered up. In all cases of doubt, or when symptoms persist, seek medical attention.

After skin contact

Wash off immediately with soap and water. Do NOT use solvents or thinners. Consult a doctor if skin irritation persists.

After eye contact

Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. Take medical treatment.

After ingestion

Do not induce vomiting. Rinse out mouth and give plenty of water to drink. Take medical treatment.

4.2. Most important symptoms and effects, both acute and delayed

The product has a strong caustic effect on the skin, eyes and mucous membranes.

Version: 7 / DE

Replaces Version: 6 / DE

Revision: 12.12.2020 Print date: 22.06.21

4.3. Indication of any immediate medical attention and special treatment needed Hints for the physician / treatment

Treat symptomatically.

5. Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Recommended: alcohol resistant foam, CO2, powders, water spray/mist

Non suitable extinguishing media

Do not use a solid water stream as it may scatter and spread fire.

5.2. Special hazards arising from the substance or mixture No materials to be especially mentioned.

5.3. Advice for firefighters

Other information

Do not allow run-off from fire fighting to enter drains or water courses. Cool closed containers exposed to fire with water. Standard procedure for chemical fires.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation.

6.2. Environmental precautions

Do not allow to enter drains or waterways. Do not allow to enter soil, waterways or waste water canal. In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.

6.3. Methods and material for containment and cleaning up

Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in container for disposal according to local regulations (see section 13). Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations. Do NOT use solvents or thinners. Send in suitable containers for recovery or disposal.

6.4. Reference to other sections

Refer to protective measures listed in Sections 7 and 8.

7. Handling and storage

7.1. Precautions for safe handling

Advice on safe handling

Keep away from sparks, open flames and other ignition sources. No smoking. Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions. Avoid contact with skin and eyes. Avoid inhalation of vapour and spray mist. Do no eat, drink or smoke when using this product. Use personal protective clothing. For personal protection see Section 8.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Containers which are opened must be carefully resealed and kept upright to prevent leakage. Keep only in the original container in a cool, well ventilated place.

Revision: 12.12.2020

Print date: 22.06.21

Trade name: glimtrex Vintage Intensive 111090

Version: 7 / DE

Replaces Version: 6 / DE

Hints on storage assembly

Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

Storage classes

Storage class according to TRGS 510 8A

Combustible corrosive hazardous substances

Further information on storage conditions

Protect from frost. Protect from heat and direct sunlight. Reactions with base metals, with evolution of hydrogen. Inappropriate material. Aluminium. Zinc. Magnesium. Tin. Copper. Light metals. Store in accordance with the particular national regulations.

7.3. Specific end use(s)

See exposure scenario, if available.

8. Exposure controls/personal protection

8.1. Control parameters

Other information

8.2. Exposure controls

Exposure controls

Users are advised to consider national Occupational Exposure Limits or other equivalent values. Provide for sufficient ventilation. This can be achieved by local exhaust or general exhaust air collection. Wear a suitable respirator if the ventilation is not sufficient to keep the solvent vapour concentration below the occupational limit values.

Respiratory protection

Breathing apparatus in the event of aerosol or mist formation. Half mask with a particle filter P2 (EN 143).

Hand protection

Protective gloves complying with EN 374.

Glove material

Appropriate Material	butyl-ru	bber	
Material thickness	>=	0,5	mm
Breakthrough time	>=	480	min

This recommendation is valid only for the product named in this safety data sheet supplied by us, and only for the indicated intended use purposes.

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.

The breakthrough time must be greater than the end use time of the product.

Gloves should be replaced regularly and if there is any sign of damage to the glove material.

The performance or effectiveness of the glove may be reduced by physical/ chemical damage and poor maintenance.

Eye protection

Wear eye glasses with side protection according to EN 166.

Body protection

Wear suitable protective clothing. Remove contaminated clothing and wash it before reuse. Wash hands before breaks and after work.

12. Ecological information

12.1. Toxicity

General information

For this subsection there is no ecotoxicological data available on the product as such.

12.2. Persistence and degradability

General information

For this subsection there is no ecotoxicological data available on the product as such.

12.3. Bioaccumulative potential

General information

For this subsection there is no ecotoxicological data available on the product as such.

Partition coefficient: n-octanol/water

Remarks

not determined

12.4. Mobility in soil

General information

For this subsection there is no ecotoxicological data available on the product as such.

Mobility in soil

no data available

12.5. Results of PBT and vPvB assessment

General information

For this subsection there is no ecotoxicological data available on the product as such.

12.6. Other adverse effects

General information

For this subsection there is no ecotoxicological data available on the product as such.

General information / ecology

For this subsection there is no ecotoxicological data available on the product as such.

13. Disposal considerations

13.1. Waste treatment methods

Disposal recommendations for the product

EWC waste code

200114 - acids

Where possible recycling is preferred to disposal or incineration. Do not allow to enter drains or waterways.

Disposal recommendations for packaging

EWC waste code

150110 - packaging containing residues of or contaminated by dangerous substances

Germany: KBS system for sheet covering Completely emptied packagings can be given for recycling.

14. Transport information
