

Product information sheet

glimtrex[®] Wood protection glaze

Product information:

Is a UV- resistant finish for exteriors.

For all wooden surfaces in exteriors, which have to deal with weathering, such as windows, garden horses, fences etc.

Is suitable for the restoration of old, open-pored finishes of weathered wood.

Excellent weathering protection, which penetrates in the into the wood. The product consists of ingredients that protect the wood against mould, algae and mushrooms.

Characteristics

- on the base of natural and renewable raw materials
- protection ageist mould, algae and mushrooms.
- highly water repellent
- protection against gray discoloration
- UV-Protection
- easy to apply
- long resistant weathering protection
- low odour
- open- pored, so the wood can still breath

Application instructions

- stir the product before using
- old colour and lacquer remains have to be removed
- for an open- pored coating clean the wood thoroughly
- processing temperature (including drying) should be higher than + 8 °C.
- The wood humidity shout not exceed 18% and the humidity should be below 60%.
- apply glimtrex[®] Wood-Opaque-Colour thin and evenly with a whitewash brush, a brush or a roller
- A new finish needs 2-3 coats (for renewing one coat should be enough)
- Apply the first coat on all sides before setting up
- has different effects on different types of wood. That is why we recommend to make a sample
- if necessary a third coat can be applied.

glimtrex GmbH

Internet: www.glimtrex.de

Yield

1 Litre for 10 m² per coat. . Depending on the type of wood or the wooden surface (freshly sawn or planed wood). If the surface is ripped the yield might double.

Technical Information

Available in 0.75 litre and 2.5 litre tins.

Colours: Transparent, oak, jaw, white, rustical, teak, palisander, zeder.

We cannot recommend a colourless finish for exteriors because it does not have a UV-Protection.

Cleaning of instruments

Dilution or white spirit

Storage

Store cold but frost-free. The shelf life is 5 years in the closed original tin. Decant the open tins and hermetically seal them. Use them prompt.
